

IRAQ

Independent nonexclusive reports on the petroleum geology, fields and new ventures of Iraq.

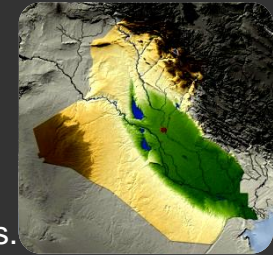

Key Benefits

- Original and independent studies by experienced professionals.
- Used a large amount of data and information.
- Studies by utilising Targets (*ST-GRTH*®), (*CGG-ESTI*®) and (*E&P-RANK*®) software for basin analysis, Identification of “*Un-discovery Wells*” among large number of wells and ranking large numbers of concessions.
- Check [Target's Publications](#) for theoretical background.
