

LIBYA

Independent nonexclusive reports on the petroleum geology and new ventures of LIBYA.

Key Benefits

- ◆ Benefit 1: Original and independent studies by experienced professionals that save your time and money.
- ◆ Benefit 2: Used a large amount of data and information.
- ◆ Benefit 3: Target's CGG-ESTI quick look method of assessing the geothermal gradients of large number of wells enables us to locate "un-discovery wells" within the open E&P blocks in mature basins. Check [Target's Other Publications](#) for the theoretical background.

Title	Target #	Price in BHD
Geothermal Gradients Anomalies of HC Entrapments, Hagfa Trough, Libya	Tar-6	P.O.A.
New E&P Blocks of Onshore and Offshore Libya, Rank etc	Tar-7	P.O.A.
