

Target Exploration

Energy Geosciences Research & Development

MENA Oil and Gas Conferences

Target Exploration is the organiser of Middle East and North Africa (MENA) Oil and Gas Conferences since 2000. MENA Oil & Gas Conferences are regular September gatherings of upstream petroleum industry professionals for presenting Exploration and Production experiences, and opportunities at the Prestigious Imperial College of the University of London, in South Kensington, London, UK. In the last few years there has been a steady increase in renewable and geo-energy papers presented at MENA Oil & Gas Conferences.

Key Benefits:

Balanced coverage of upstream hydrocarbon and energy development in MENA, presented by national and international experts.

Authors and presenters of MENA Oil and Gas Conferences are encouraged to:

- Present new E&P opportunities in MENA to technical and managerial new-ventures staff of IOC, and research establishments.
- Disseminate technical, managerial, legal experiences, solutions, and achievements of MENA geoscientists and other technical staff.
- Introduce new E&P reviews, ideas, ventures, solutions, procedures, methodologies, and technologies successfully applicable in MENA.
- Introduce technical upstream staff, human and financial resources of MENA countries to international Oil and Gas, international new-venture establishments, international legal firms, management consultants, financial establishments, technical services and consulting companies.
- Propagate cooperation between MENA upstream staff with upstream and R&D staff of international oil companies and research institutes.
- Investigate and research the advances and limitations of Geothermal, Solar, Winds, Hydraulics, Waves and other renewable energies.
