

# Target Exploration

Target Exploration

## R&D\*, PRODUCTS & SERVICES

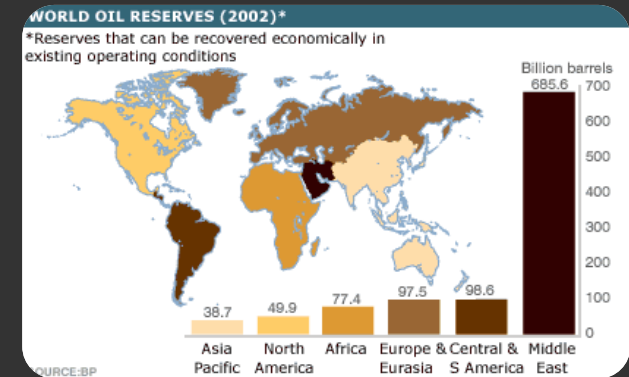

Members and associates of Target Exploration have studied, identified, tested, analysed, compiled geological and/or geophysical databases and formulated upstream technical solutions, developed new exploration play concepts and generated and documented prospects:

### 1- Exclusive AOIs, Leads, Anomalies and Prospects.

Geothermal Gradients Anomalies of HC Entrapment in: Southern North Sea Basin of UKCS, Northern Middle East, Libya plus other in-progress studies. [Click title for details.](#)

### 2- Regional Petroleum Geology, New Ventures and Field Studies of Iraq

- New GIS Gravity Maps of Onshore and Offshore Iraq.
- Regional studies of the Petroleum Geology of South Iraq and Western Desert of Iraq.
- Geothermal Gradient of Iraq and adjacent areas.
- Petroleum Potential and New Ventures Guide.
- Typical Giant Oil Fields of South Iraq.

- Geology and HC Resources of Hamrin Field, N. Iraq.
- Geology and Geophysics of Rafidain Field W. Iraq.

[Click title for details.](#)

### 3- Regional Petroleum Geology of Offshore and Onshore Kuwait

- New GIS Gravity Maps of Offshore and Onshore Kuwait.

[Click title for details.](#)

### 4- New Ventures and Regional Petroleum Geology Studies of Onshore & Offshore Libya

- New GIS Gravity Maps of Onshore and Offshore Libya.
- New E&P Blocks of Libya.
- Geology of Western Offshore Libya.
- Geothermal Gradients of Hagfa (Marada) Trough, Sirte Basin, Libya
- Petroleum Geology and Remaining Undeveloped Discoveries and Un-discoveries of Kotla Trough, Sirte Basin, Libya.

[Click title for details.](#)

### 5- Target Publications and Conference Documents

New ideas and technical papers and posters presented by target staff members and associates to local, regional and international meetings and conferences including ones presented at MENA and IPC conferences can be accessed. [Click title for list of Target Exploration Publications.](#)

\*R&D (according to Deardorff's Glossary of International Economics [www-personal.umich.edu/~alandear/glossary/r.html](http://www-personal.umich.edu/~alandear/glossary/r.html)) is defined as: "The use of resources for the deliberate discovery of new information and ways of doing things, together with the application of that information in inventing new products or processes".
