Petroleum Geology of Southern Iraq

A Target Exploration Report

Petroleum Geology of Southern Iraq

The Report

This is an extensive study of the petroleum geology of southern Iraq; covering stratigraphy, structural styles, geothermal gradients, potential source rocks and hydrogeology.

The report concludes with an evaluation of the exploration potential of the entire Phanerozoic sequence of South Iraq.

The report is in two volumes, 350 pages of text, 133 maps and figures, 103 pages of appendices, 14 pages of references and 19 enclosures.

Contents

ITEM	PAGE
VOLUME ONE	
CHAPTER I: INTRODUCTION	15
1.1 Location and Physiography	15
1.2 Regional Geological Setting	15
1.3 Previous Work	25
1.4 Aim and Materials of Study	25
1.5 Method of Study	28
CHAPTER II: PRE-CAMBRIAN, INFRA-CAMBRIAN AND PALEOZOIC SYSTEMS	48
P.1. Introduction	46
11.1 Pre-Cambrian Basement	48
II. 2 Infra-Cambrian	51
11.3 The Cambrian-Ordovician Rocks	58
11.4 The Silurian Rocks	64

11.5	The Lower-Middle Devonian Rocks 67	
11.6	The Famennian-Lower Tournaisian Rocks 69	
11.7	The Upper Tournaisian—Autuniatin Rocks 72	
11.8	The Kungurian-Kazanian Rocks 76	
11.9	The Tatarian Sediments 79	
CHAPTER III THE MESOZOIC SYSTEM		80
111.1	The Tatarian—Ladinian Rocks 81	
111.2	The Carian-Rhaetian Rocks 90	
111.3	The Hettangian—Pliensbachian Rocks 95	
111.4	The Toarcian—? Lower Aalenian Rocks 101	
111.5	The Upper Aalenian—Bathonian Rocks 105	
III.6	The Callovian—Lower Tithonian Rocks 111	
111.7	The M.Tithonian—Aptian Rocks 117	
111.8	The Albian—Basal Cenomanian Rocks 136	
111.9	The Cenomauian—Lower Turonian Rocks 153	
III.10	The Coniacian—Lower Maestrichtian Rocks 168	
111.11	The Maestrichtian Rocks 179	
CHAPTER IV: THE CENOZOIC SYSTEM		191
111.1	The Paleocene—Ypresian Rocks 192	
IV.2	The Lutetian—Priabonian Rocks 203	
IV.3	The Oligocene Rocks 213	
IV.4	The Aquitanian Rocks 221	
IV.5	The Burdigalian Rocks 229	
IV.6	The ? Lower-Middle Miocene Rocks 236	
IV.7	The Upper Miocene-Pleistocene Rocks 244	
IV.8	The Holocene Sediments 253	

CHAPTER V: PRESENT STRUCTURAL CONDITIONS	263
P.II.1 Introduction 264	
V.1 Present Surface Structural Features 266	
V.2 Present and Historical Seismicity 268	
V.3 Geophysical Data 268	
CHAPTER VI: STRUCTURAL GROWTH AND DEVELOPMENTS	275
VI.1 Anticlinal Growths 275	
VI.2 The Effects of Structural Features on Sedimentation 287	
CHAPTER VII: PETROLEUM EXPLORATION AND PROSPECTS OF SOUTHERN IRAQ	292
P.III. Introduction 293	
VII.1 Exploration Elements 298	
VII.2 Petroleum Traps 316	
VII.3 Petroleum Prospects of Southern Iraq 344	
CHAPTER VIII: SUMMARY AND CONCLUSIONS	347
REFERENCES	351
FIGURES	PAGE
1.1.1 Location map 16	16
1.1.2 Physiographic map of S. Iraq 17	
1.1.3 Topographic map of S. Iraq 18	
1.2.1 Generalised tectonic map of Iraq 20	
1.2.2 Main tectonic and structural elements of Iraq 21	
1.3.1 Regional rock units correlation (Naqib, 1967) 26	
I.5.3.1 Location map 32	32
I.5.3.2 Well location map of N. Iraq 33	
I.5.4.1 Lithological log heading 35	
P.1.1.1 Stratigraphic grouping, Basrah area (Owen and Nasr, 1958) 47	47

11.1.1	Generalized geological map of Hijaz area (Helal, 1968) 49	49
11.2.1	Geological map of Jabal Sanam (Naqib, 1970) 52	
11.3.1	Nomenclature and correlation of the Cambrian rocks around the Arabian Shield 56	
11.3.2	Age relationships of Paleozoic rock units in S. Iraq and circumferential territories 57	
11.3.3	Correlation diagram of Paleozoic formations around S. Iraq 59	
11.7.1	<u>Sigillaria (Stylodendron)</u> stem from Nijiji Formation, Ga'ara area 73	
111.1.1	Age relationships of Triassic-Jurassic Formations in S. Iraq and circumferential areas 82	82
111.1.2	Stratigraphic correlation diagram of the Tatarian-Ladinian rocks 84	
111.1.3	Inferred isopach—lithofacies map (Tatarian—Ladinian rocks) 88	
111.2.1	Inferred isopach—lithofacies map (Carnian—Rhaetian rocks) 93	
111.3.1	Stratigraphic correlation diagram of the ?Hettangian-Bathonian rocks 96	
III.3.2	Generalised isopach—lithofacies map (Hettangian-Pliensbachian rocks) 99	
111.4.1	Generalised isopach—lithofacies map (Toarcian-? L.Aalenian rocks) 103	
III.5.1	Generalised isopach—lithofacies map (? U.Aalenian-Bathonian rocks) 109	
III.6.1	Isopach and quantitative lithofacies map (Callovian-L.Tithonian rocks) 113	
111.6.2	Stratigraphic cross section (Callovian—L.Tithonian rocks) 114	
111.6.3	Dominant environments of deposition (Callovian-L.Tithonian rocks) 116	
III.7.1a	Stratigraphic cross section (M. Tithonian—Aptian rocks) 119	
III.7.1b	Stratigraphic cross section (M. Tithonian—Aptian rocks) 120	
111.7.2	Isopach and quantitative lithofacies map (M. Tithonian- L.Valanginian rocks) 124	
111.7.3	Dominant environments of deposition (M.Tithonian-L.Valanginian rocks) 126

A.III.	Indicators of the environments of deposition 56	
A.IV.	Data of present structural developments in Southern Iraq 78	

A.V. Geothermal gradient data of Southern Iraq 98
 A.VI. Mud pressure data of some of the Mesozoic intervals in S. Iraq 101
 A.VII Formation—water resistivity and estimated NaCl concentration 108

Enclosures I to XIX

1. Geological map of S. Iraq
2. Age relationships of the rock units in S. Iraq, SW Iran and N. Saudi Arabia
3. Lithological log of Well Ag-2
4. Lithological log of Well Af-1
5. Lithological log of Well Bu-2
6. Lithological log of Well Dujaila-1
7. Lithological log of Rutbah and Ga'ara exposures
8. Lithological log of Well Kf-1
9. Lithological log of Well Musaiyib-1
10. Lithological log of Well Rachi-1
11. Lithological log of Well Ru-1
12. Lithological log of Well Sf-1
13. Lithological log of Well Sa-1
14. Lithological log of Well Sb-1
15. Lithological log of Well Ub-1
16. Lithological log of Well Zu-1
17. Tectonic map of Southern Iraq
18. Bouguer gravity anomalies in S. Iraq
19. Geochemical source rock analysis of Zubair formations shale
