

# Target Exploration

*βapp*

Target Exploration

**Target Exploration Consultants** is a multidisciplinary exploration and production geo-research team dedicated to providing the oil and gas industry with innovative and high standard petroleum exploration, development and production research, technical solutions, studies and services.

**Target Exploration Consultants** was established in 1990 in Kensington, London, England by a petroleum geologist [Muhammad Wijdan Ibrahim, Ph.D.](#) in association with a group of experienced geologist, geophysicists, structural geologists, petrophysicists, geochemists, reservoir engineers and other experts with proven hydrocarbon exploration and production track records, quality research and technical services in upstream oil industry, academia and research institutes.

**Target Exploration Consulting Team** has been assisting the oil and gas industry since 1990 in exploring for new oil and gas traps, evaluating and producing oil and gas reservoirs, in prospecting for hydrocarbons in fractured and nonconventional reservoir rocks, and in rediscovering economical hydrocarbons missed, bypassed, un-reached or underestimated by discovery and "[un-discovery wells](#)".

**Target Exploration organises** an annual [MENA Oil & Gas Conference](#) (Middle East and North Africa Oil and Gas Conference) and an occasional [Iraqi Petroleum Conference \(IPC\)](#).
