Target Exploration

Target Exploration Consultants is a multidisciplinary exploration and production geo-research team dedicated to providing the oil and gas industry with innovative petroleum exploration, development and production research, technical solutions, studies and services.

Target Exploration established in 1990 in Kensington, London, England by a petroleum geologist [M.W. IBRAHIM, Ph.D.](#) in association with a group of experienced petroleum professionals with proven hydrocarbon exploration and production records of accomplishment, quality research and technical services in the upstream oil industry and research circles.

Target Exploration team has been providing the oil and gas industry with new-ventures studies, evaluations of oil and gas in conventional, fractured and nonconventional reservoirs since 1990.

Target developed its own software ([E&P-RANK[®]](#)) for ranking new concessions and ([CGG-ESTI[®]](#)) for reviewing areas for missed, bypassed, underestimated or un-reached HC traps by early "[un-discovery wells](#)".

Target Exploration also organises the annual Middle East & North Africa Oil & Gas Conferences ([MENA Oil & Gas Conferences](#)), the Iraqi Petroleum Conferences ([IPCs](#)) and MENA Fieldtrips.
