Energy Geosciences Research & Development

Target Exploration

*βapp*

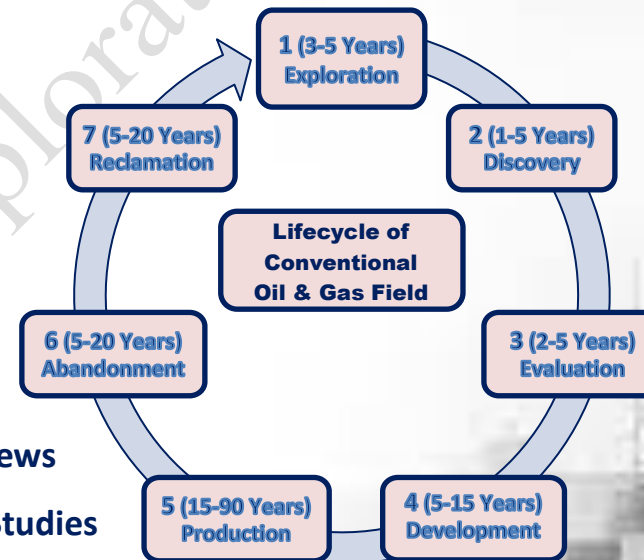

## Geo-consulting Services and R&D Solutions

Target Exploration

Target Exploration provides a range of Exploration, Development and Production Geosciences consulting and R&D solutions:

- I. Geological Software Solutions
- II. Exploration and Prospects Generation
- III. Concessions Evaluation & Statistical Ranking
- IV. New-venture Studies and Country Risk Analysis
- V. Conferences, Courses and Fieldtrips Organisation
- VI. Basin Analysis and Multiple Petroleum Systems Modelling
- VII. Dry-holes Post-mortems, Interim and Final Well Drilling Reviews
- VIII. Conventional and Unconventional HC Reservoirs and Fields Studies
- IX. Geo-hazards, Health, Safety and Environment Geosciences Research
- X. Geophysical, Gravity, Magnetic and Seismic Processing and Interpretation
- XI. Geothermal, Optical and Geochemical Source Rocks Analyses and Interpretation
- XII. Drilling, Cuttings, Mud Gas Shows (GWD), Open & Cased Hole Wireline Log Interpretation

Target Explorations' Range of Exploration, Development and Production Consulting Services and R&D Solutions

Training

Dry Holes Post-mortem,  
Interim and Final Well  
Drilling Reviews

Oil and Gas Reservoirs  
Characterisation

Drilling, Cuttings, Mud Gas,  
Wireline and Borehole Image  
Logs Interpretations

Countries and New  
Ventures Risk Evaluation

Concessions Evaluation  
and Statistical Ranking

Exploration and Prospects  
Generation Studies

Geo-Hazards, Environments  
and HSE Research

Geophysical, Gravity, Magnetic  
and Seismic Data Processing and  
Interpretations

Geothermal, Optical and  
Geochemical Hydrocarbon  
Source Rocks Analysis

Basin Analysis and Multiple  
Petroleum Systems and Trap  
Closures Modelling
