

# **Iraqi Petroleum Conferences (IPCs)**

**Target Exploration is the independent organiser of Iraqi Petroleum Conferences since 1999.**

Iraqi Petroleum Conferences are regular events held by Target Exploration at the Imperial College, London, UK. They are dedicated to presenting exploration, fields' development and production rounds and opportunities, as well as renewable energies projects and experiences in Iraq by national and international petroleum and energy professionals.

**Key Benefits:** Major source of petroleum exploration, production and fields' development information and data on Iraq and adjacent countries, presented by national and international experts.

**Authors and presenters of Iraqi Petroleum Conferences are encouraged to:**

- Present new E&P and renewable energy opportunities and achievements in Iraq.
- Disseminate technical and operational experiences of Iraqi and IOCs geoscientists to technical and new-ventures staff of national and international oil and energy companies and research establishments.
- Introduce new E&P development in conventional, unconventional and renewable energy technologies applicable on or applied in Iraq.
- Introduce upstream staff and new opportunities in Iraq to international oil and gas companies, international legal firms, and managements, technical and consulting companies.
- Propagate cooperation between Iraqi upstream staff with upstream and R&D staff of international oil companies and research institutes.
- Investigate and research advances in geothermal, solar, winds, hydraulics, waves and other renewable energies in Iraq and adjacent countries.
